Education

National Institute Of Technology, Kurukshetra, B.Tech in Information Technology   Dec 2021 – Jun 2025
- CGPA: 7.72/10
- **Coursework:** Data Structures and Algorithms, Operating Systems, Database Management System, Object Oriented Programming, Computer Networks

Experience

Management Trainee (IT), Hylif Innovations Pvt. Ltd. – Ghaziabad, UP   June 2025 – Present
- Assisted in maintaining and updating the company website, including layout adjustments and design improvements.
- Coordinated with internal teams to understand requirements and helped set up cloud platforms (e.g., email, storage, collaboration tools).
- Managed IT infrastructure including laptop setup, basic troubleshooting, software installation, and regular maintenance for employees.
- Collaborated with external vendors and internal teams to implement tech solutions aligned with business needs.
- Gained hands-on experience in practical IT operations and cross-functional coordination.

Projects

TimelyTrail   Github
- Built a time management app with geofencing to automatically track time spent at key locations.
- Designed a scheduling interface with daily, weekly, and monthly planning features.
- Implemented punctuality analysis and generated CSV reports with detailed time usage insights.
- Ensured offline-first functionality and complete user privacy by storing data locally.
- *Tools: Flutter, Dart, Firebase, Geofencing*

Evolve   Github
- Developed a habit-tracking app to help users monitor and maintain daily routines.
- Added habit creation, progress tracking, and streak monitoring features.
- Integrated a heatmap UI for visualizing habit consistency.
- Used Isar database for secure local storage and offline usage.
- *Tools: Flutter, Dart, Isar*

IdeaKeep   Github
- Created a minimalist notes app for quick idea capture and organization.
- Focused on a clean, distraction-free UI for seamless note-taking.
- Supported unlimited notes with persistent local storage.
- *Tools: Flutter, Dart*

Technologies

Languages: C++, Java, Python, Dart, JavaScript, SQL, HTML, CSS
Frameworks/Tools: Flutter, Firebase, REST APIs, Isar, Git, GitHub, Node.js, Express.js, Postman

Interests

Passionate about exploring Linux distributions — Ubuntu, Fedora, openSUSE, Arch Linux, and more. Enjoy learning about UI/UX principles, modern design systems, and crafting intuitive user experiences.
